ABSTRACT

The data in this report on bachelor's and higher degrees conferred during 1973-74 are based on the survey of "Degrees and Other Formal Awards Conferred between July 1, 1973 and June 30, 1974." The survey was part of the ninth Higher Education General Information Survey (HEGIS), conducted by the National Center for Education Statistics. This volume is a companion to "Earned Degrees Conferred, 1972-73 and 1973-74, Summary Data," which includes tabulations for the aggregate United States, as well as a complete description of the survey universe and the methodology used. The survey response rate was 100 percent. Data are presented in tabular form, organized according to control of institution, discipline division and specialty, sex of student, state or other area, and institution. A copy of the survey report form is included. (Author/MSE)

FOREWORD

The data in this report on bachelor's and higher degrees conferred during 1973-74 are based on the survey of "Degrees and Other Formal Awards Conferred between July 1, 1973, and June 30, 1974." The survey was part of the ninth Higher Education General Information Survey (HEGIS), conducted by the National Center for Education Statistics (NCES). This volume is a companion to *Earned Degrees Conferred, 1972-73 and 1973-74, Summary Data,* which includes tabulations for the aggregate United States, as well as a complete description of the survey universe and the methodology used to verify survey data. A facsimile copy of the report form showing data for each cell reflecting totals for the aggregate United States is contained in the Appendix of this volume.

Only a limited supply of this edition is being produced, designed for use by those who require detailed institutional listings for special studies.

The cooperation of the college and university officials who supplied the institutional reports has made possible a response rate of 100 percent. The continued efforts and interest of the survey respondents and the State coordinators are deeply appreciated.

INTRODUCTION

These data for 1973-74 are based on a total of 1,667 institutions representing 1,809 reporting units.* So far as the staff of the National Center for Education Statistics (NCES) could determine, these were the only institutions conferring bachelor's and higher degrees during this period. Each institution provided complete survey data, making it unnecessary for NCES to estimate any of the breakdowns by sex of student, level of degree, or discipline specialty. Some reporting units were unable to provide separate data, their totals being included with those of the main campus. These are indicated by appropriate notes in the tables.

The tables reproduced in this volume are not identical to tables reproduced in other reports and are, therefore, numbered independently. Table 1 summarizes the production of bachelor's degrees by discipline division and sex of recipient for the years 1970-71 through 1973-74. Table 2 does the same for master's degrees, while tables 3 and 4 summarize similar data for doctor's and first-professional degrees, respectively. These tables are included to provide basic trend data against which institutional comparisons may be made. Data by discipline division have been collected on a comparable basis for all 4 years shown.

Table 5 lists, for each reporting unit in the survey, the total number of degrees granted at the bachelor's, master's, doctor's, and first-professional levels. Table 6, which forms the bulk of this publication, gives the number of degrees conferred at the bachelor's, master's, and doctor's levels in each discipline specialty by each institution. The institutions are listed alphabetically by State within each specialty. Table 7 presents a similar listing for first-professional degrees.

For those users who may wish to make historical comparisons, tables 5, 6, and 7 in this volume are equivalent to tables 7, 8, and 9, respectively, in *Earned Degrees Conferred, 1970-71* (OE 73-11412) and *Earned Degrees Conferred, 1971-72* (NCES 75-108).

* In this report, an institution may consist of one or more separately organized reporting units. For example, Southern Illinois University is a single institution composed of two reporting units: the campus at Carbondale and the campus at Edwardsville. (A central office of a university system is not considered a reporting unit for purposes of this study.)

6. THE INSTITUTION COVERED BY THIS REPORT IS *(Check only one)*

(a) ☐ A SINGLE-CAMPUS INSTITUTION

(b) ☐ A MAIN CAMPUS *("Parent" institution)* WITH ONE OR MORE BRANCH CAMPUSES AND/OR OTHER CAMPUSES *(Specify in item 8 below)*

(c) ☐ A BRANCH CAMPUS OF A PARENT INSTITUTION *(Write the name of parent institution below)*

(d) ☐ ONE OF THE ADMINISTRATIVELY EQUAL CAMPUSES OF A MULTI-CAMPUS INSTITUTION

7. IF THE INSTITUTION COVERED BY THIS REPORT IS INCLUDED IN AN "INSTITUTIONAL SYSTEM", WRITE THE NAME OF THE SYSTEM BELOW.

8. PARENT INSTITUTIONS *(As checked in item 6b)* SHOULD LIST THE NAMES OF ALL THEIR BRANCH CAMPUSES BELOW. USE THE FIRST COLUMN TO SHOW WHETHER DATA FOR ANY OF THESE UNITS ARE INCLUDED WITH THE DATA FOR THE "PARENT" IN THIS REPORT.

ARE DATA FOR THIS UNIT INCLUDED IN THIS REPORT?	NAME OF BRANCH CAMPUS AND/OR OTHER CAMPUS	ADDRESS *(City, State, and ZIP code)*

Data shown on the form are for the aggregate United States

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

DEGREES AND OTHER FORMAL AWARDS CONFERRED BETWEEN JULY 1, 1973 AND JUNE 30, 1974

SURVEY COVERAGE

This report is divided into 3 parts.

PART A is concerned with first-professional degrees only.

PART B is concerned with bachelor's, master's, and doctor's degrees.

PART C is concerned with awards below the bachelor's level *(Associate degrees and other formal awards)*.

Many institutions will appropriately skip one or more of the 3 parts. If a particular part *(A, B or C)* does not apply to you, please indicate that fact and forward that part to us along with those you did complete.

Classification of the major fields of study used in this survey has been presented in the following publication:

U.S. Department of Health, Education, and Welfare, Office of Education, National Center for Educational Statistics. *A Taxonomy of Instructional Programs in Higher Education.* By Robert A. Huff and Marjorie O. Chandler, OE-50064-70. Washington: U.S. Government Printing Office, 1970. Price: $ .45.

NOTE: Listings of data for individual institutions are regularly included in published reports of this survey.

GENERAL INSTRUCTIONS

1. **INCLUSIVE DATES.** Report only those degrees *(including awards in Part C)* which were actually conferred between July 1, 1973 and June 30, 1974. Degrees earned but not yet conferred during this time period should be reported in next year's survey.

2. **INSTITUTIONAL COVERAGE.** A separate report is requested from each branch or member of a system, as well as from each entirely independent institution and each "parent" institution. Please provide the information requested in item 6 on the cover page, which is intended to permit complete identification of the reporting unit. Do not include degrees conferred by branches of your institution located in foreign countries.

3. **CONSULTATION ON PROBLEMS.** If clarification of the definitions and instructions is needed, please consult the survey director, Mrs. Mary Evans Hooper, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Or you may reach Mrs. Hooper by telephone: (202) 245-8392.

4. **RETURNING FORMS.** Completed report forms should be addressed: Attention: Room 2164-HEGIS, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

5. **MAJOR CHANGES.** If the number of degrees you report in any area is significantly larger or smaller than the number you reported last year, it will be most helpful if you will include explanatory notes on the form or on an accompanying sheet of paper. Please indicate by circling the "line number" in column 3 if degrees were conferred *for the first time in 1973-74 in a* discipline specialty new to your institution.

6. Please verify your entries and check all the addition before returning the form.

7. **SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR EACH OF THE 3 PARTS.**

NAME OF INSTITUTION	1. INSTITUTION CODE NUMBER

INSTRUCTIONS FOR PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS, 1973-74

Only the 8 professions listed below should be reported in Part A. Within these professions, report first-professional degrees only. A first-professional degree is defined herein as one which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are first-professional degrees within the 8 professions other than those specifically named in connection with those professions.

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B.

The TOTAL line (line 14) should show the sums of all entries in columns 4 and 5.

PART A. FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS *(Requiring at least six years of study)*

IS PART A APPLICABLE TO YOUR INSTITUTION? ☐ YES ☐ NO

(If not applicable, proceed to Parts B and C.)

INSTRUCTIONS FOR PART B: BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

1. TYPES OF DEGREES. Report earned bachelor's, master's, and doctor's degrees, except for those first-professional degrees reported in Part A. Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work.

Do not report honorary degrees.

Certificates for work between the master's degree and the doctor's degree should be separately listed at the end of Part B. See 5(d) below.

(Report Associate in Arts degrees or similar awards below the bachelor's level in Part C.)

2. GROUPING OF DISCIPLINES. The major fields of study to be reported here fall in the following discipline divisions:

0100 Agriculture and Natural Resources	1300 Home Economics
0200 Architecture and Environmental Design	1400 Law
0300 Area Studies	1500 Letters
0400 Biological Sciences	1600 Library Science
0500 Business and Management	1700 Mathematics
0600 Communications	1800 Military Sciences
0700 Computer and Information Sciences	1900 Physical Sciences
0800 Education	2000 Psychology
0900 Engineering	2100 Public Affairs and Services
1000 Fine and Applied Arts	2200 Social Sciences
1100 Foreign Languages	2300 Theology
1200 Health Professions	4900 Interdisciplinary Studies

3. SKIPPING INAPPLICABLE DISCIPLINES. Skip those discipline divisions in which your institution does not grant degrees. Many registrars, for example, will skip one or more of the following: 0100; 1200; 1800; 2300.

4. NUMBER OF DEGREES. Report all degrees (within the limitations of paragraph 1, above). If a student earned two degrees between July 1, 1973 and June 30, 1974 *(e.g.,* a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year), report each of the two degrees in its appropriate classification.

5. DEGREE LEVELS.

(a) Report all BACHELOR'S DEGREES requiring at least 4 but not more than 5 years of academic work in Columns (4) and (5) of the report-form. Also, report ALL bachelor's degrees conferred in a COOPERATIVE or WORK-STUDY PLAN or PROGRAM in Columns (4) and (5). A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) MASTER'S DEGREES. The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one *(sometimes two)* academic years of work beyond the bachelor's degree.

Except for the Master of Divinity degree (Part A), report all master's degrees in Part B, Columns (6) and (7) *(even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.)* Report Education specialist (6-year degree) in same columns as master's degrees, in appropriate discipline specialty in Education (0800).

(c) DOCTORATE. The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. *(In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.)* Please report the doctor's degrees *(except those included in Part A)* in Columns (8) and (9) of the report-form.

(d) OTHER DEGREE OR CERTIFICATE. If your institution provides any recognition *(degree or certificate)* for a program intermediate between the master's degree and the doctor's degree *(Ph.D., Ed.D., etc.)* which in essence is the doctor's degree without the dissertation *(for example, Master of Philosophy, Candidate-in Philosophy, etc.) (do not include 6-year specialist degrees)*, please report the name of the degree or certificate and the number of students receiving it in the item at the end of Part B *(after Item No. 9800.) (Do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees in the report-form.)*

6. CLASSIFICATION OF DEGREES ACCORDING TO MAJOR FIELD OF STUDY.

(a) Specific Classification. Classify degrees as specifically as the list of specialties in the broad discipline divisions of the report form permits. Thus, report a bachelor's degree in business administration with an accounting major in Accounting (0502), NOT in Business and commerce, general (0501).

(b) Degree of Doctor of Philosophy. Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, NOT as one in Philosophy.

(c) **Majors of Students Prepared to Teach.** The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who have prepared to teach an academic subject, such as English, biology, mathematics, or foreign languages, should be reported as appropriate in Letters, Biological Sciences, Mathematics, and Foreign Languages and NOT in Education. On the other hand, the degrees of students who have prepared to teach such special subjects as agriculture, art, music, etc. should be reported in Agricultural education (0899-1), Art education (083.), and Music education (0832).

(d) **Split and Double Majors.** When a student graduates with a split major or a double major – e.g., in Spanish and French – report the degree either in the area of greater specialization or as half a degree (.5) in French and half a degree (.5) in Spanish. *(If the split or double major involved Spanish and an unlisted language, the second language should be reported in Other, specify (1199)).* Similarly in the case of a student with a split or double major in Biology and Chemistry, report the degree in the area of greater specialization or as (.5) degree in Biology and (.5) degree in Chemistry.

(e) **Unlisted Fields of Study.** When classifying a specialty which does not seem to fit into the list, the institution has two choices: (1) it can be listed by name under "other" if it represents an unlisted specialty, or (2) it can be placed in a "general" category if it covers several listed specialties.

(f) **General Majors.** The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report-form, such as Physical sciences, general (1901); Social sciences, general (2201); Humanities and social sciences (4903), etc. Thus a degree based on concentration in History-Government-Economics should be reported in Social sciences, general.

(g) **Interdisciplinary Studies.** Code 4999 is for reporting fields of study which represent two or more broad discipline divisions; for example, Mass Communications, encompassing segments of psychology, education, business, journalism, social sciences, fine arts, etc., should be reported here. Specify the name of the interdisciplinary study when reporting in 4999.

(h) Before submission, please verify that the specialty subtotals (for example, lines 22, 33, and 52, etc.) are the sum of the specified preceding lines for every column (columns (4) through (9).
